

SECOND STEP CORNER – Members of the Broad Ford Elementary School Head Start classroom are pictured as they take turns riding bikes at play time. Shown from left are Dillon Jordan, Cole Tasker, and Jaggar Miller, who are being taught waiting skills through the Second Step™ program. This program teaches children how to wait by calming down and then doing something quiet. "Knowing how to wait helps children learn at school and at home," a spokesperson said. In Garrett County, Second Step™ is supported by the Community Action Committee, Board of Education, Health Department and APPLES for Children (Alliance for Parent, Provider, and Local Employer Solutions). For more information about Second Step, persons may call their child's school or the office of health education and outreach at the Garrett County Health Department at 301-334-7730 or 301-895-3111.
