

**SECOND STEP CORNER** – The One Second Step Curriculum concept taught in Garrett County Head Start classrooms is focused on listening skills: eyes watching, ears listening, voice quiet, and body calm. In the picture above, Caydon Frantz (left) and Jordan Lane demonstrate their listening skills as they pause for a picture during their turn in the technology center in the Friendsville head start/pre-kindergarten collaborative classroom. Second Step™ is supported in Garrett County by the Community Action Committee, Garrett Co. Board of Education, Garrett Co. Health Department, and APPLES (Alliance for Parent, Provider, and Local Employer Solutions) for Children. For more information about Second Step, persons may call their child's school or the health education and outreach office at the Garrett County Health Department at 301-334-7730 or 301-895-3111.
