

IT'S FUN TO BE SHARING AND CARING – The boys in the picture above are demonstrating caring and sharing, key concepts from the Second Step program taught in Garrett County Head Start classrooms. Kevin Crisostomo (left) smiles as he offers to help Bode Panther pick up the blocks in the Sunny Days classroom in Friendsville. The children learned that being kind to other people is a way to show one cares about how they are feeling. Second Step™ is supported in Garrett County by Community Action Committee, Board of Education, Health Department, and APPLES for Children. For more information about Second Step, parents are asked to call their child's school or the GC Health Department's health education and outreach office at 301-334-7730 or 301-895-3111.
