

...the Veterans!

*Just*  
**Like You!**

**JUST LIKE YOU!** The Just Like You campaign has launched in Garrett County, designed to remind parents, guardians, grandparents, teachers, coaches – all adults – of the importance of positive role modeling for children. Pictured is James Michaels as he models the importance of healthful eating for his son AlecXander. Nutrition is the first of six healthy behavior role modeling topics to be brought out in the campaign over the next six months. More information about the campaign, nutrition, and interactive ways for adults to participate with children can be found online at [garretthealth.org](http://garretthealth.org). The Just Like You campaign is being sponsored by Garrett County Community Action, board of education, and health department.
